S. MAUPIN, M. D.,

Det. 2

Dean of the Faculty.

THIRD ANNUAL EXHIBITION

Maryland State Agricultural Society.

A PPEAL TO THE MEMBERS OF THE MARYLAND STATE AGRICULTURAL SOCIETY.—We desire that you should bear in mind, that on the 23d, 24th, and 25th days of October, your Society will hold its annual Exhibition and Fair at the city of Baltimore: and we appeal to you, one and all, to bring for exhibition therest portions of your stock, the preducts of your orchards; and of your gardens. Don't pressume that any animal, or product, you may ewn in inferior to others that will be here, and be thus deterred from bringing them, as it is only by comparison that the relative merits of any thing can be determined! The safer presumption for you to arrive at, will be that what you have is as good, if not better than that of others, and that it behooves you to gallantly enter the list of competition: if defeated honorably, and the high character of the judges is a guarantee that you can be defeated in no other way, you will enjoy the luxury of knowing that others were more entied to success than yourself.

And while we address you to bring such articles as are properly in your department, we crave permission to solicit your interest, to induce your wises and daughters to bring whatever apperains to their peculiar departments, as embroidery, household manufactures, the products of the dairy and of the poultry yard, preserves, domestic wines, confections, and, above all things, to come themselves, as without woman, and the beautiful elaborations of her tests and geniue, no display can be perfect.

To the Manufacturers of Agricultural Implements and Tools, we would say, that interest and patricular and geniue, no display can be perfect.

To the Manufacturers of dispisualisted Implements and Tools, we would say, that interest and patricular and geniue, no display can be perfect.

To the Manufacturers and Machanics of the Union, will be greater than upon any former occasion here or elsewhere. We therefore say to the Agricultural Implement makers and Machanics of the Union, will be greater than upon an

Editors with whom we exchange will con fer a favor by copying this notice.

WILLIAM TUCKER, MERCHANT TAILOR, (of the late firm of Lane & Tucker,) would call the attention of his friends and the public generally to his stock of Goods now opening, which has been selected by himself from the largest importing houses in New York, and by far the greatest variety and richest styles I ever offered in this city. Strangers are respectfully and earniestly solicited to give me a call and examine my stock before purchasing, as I am confident it will be to their advantage.

And I would especially call the attention of officers, both of the army and the navy, to the fact that I am prepared to execute all kindsof uniforms, according to the late regulations, at the shortest notice, and at moderate prices, warranted, both in the cutting and making departments, equal to any establishment in this country.

W. T. tenders his sincers thanks to his numerous friends for their long and continued patronage, and hopes, by the same diligence and attention to business, to merit a continuance of the same.

All orders promptly executed.

THE subscribers are constantly receiving direct from the manufacturers, MADE TO THEIR ORDER, and expressly adapted to the Southern trade, and to which they with confidence invite G6. Mechanical Principia. (Leonard.)

The great object of this publication is, to place before practical men and students such an amount of theoretical and scientific knowledge, in a conlensed form, as shall enable them to work to the best advantage, and to avoid those mistakes which hey might otherwise commit. The amount of useful information thus brought together, is almost beyond a precedent in such works. Indeed there is hardly any subject within its range which is not cated with such clearness and precision, that even man of the most ordinary capacity cannot fail of understanding, and thus learning from it much which it is importent for him to know.

From the annexed list of the principal authors and subject comprised in this work it is self-evident, that all citizens engaged in the practical and useful arts, etc., may derive essential advantages from the possession and study of this publication, The following may be especially designated:

Millwrights. nask Doylies, Napkins and Cloths, of vari-

Millwrights.
Moulder and Boiler Makers.
Artificers in Brass, Copper, and Tin.
Cutlers, and Workers of Steel in general.
Carpenters.
Brickmakers.
